

## Information Sheet

### What is Teampay?

Teampay is an exciting new way for your organisation to accept game fees. Using a specially designed app, members make payment through the platform and send their team fees to your organisation in real-time, creating an efficient and more cost effective method for handling your members transactions.

### How it works?

The allocated Team Captain or Coach logs into the app on game day. They then select the participants and hit charge. The money is then drawn from each individuals account and sent to the organisation

## Information Sheet

### How does it look from the organisations end?

Every organisation has their own personalised dashboard. As teams make payment, they will illuminate on the dashboard in real time, indicating that the money has been received and their ready to play.

The dashboard also allows you to manage as many leagues/divisions as you like.

The screenshot displays the Teampay dashboard interface. At the top left is the Teampay logo. The navigation bar includes links for Overview, Teams, Add Team, Transactions, Payouts, and Logout. The main header area features a large image of a basketball game with the word "Overview" overlaid. Below this is a date navigation bar showing days from Monday, 3 Jun 2019 to Sunday, 9 Jun 2019, with "Tue, 4 Jun 2019" selected. To the right of the date bar are buttons for "Select All" and "Claim Payments". The content area is divided into sections for "A Grade Men Carrara" and "B Grade Men Carrara". Under "A Grade Men Carrara", there are five team cards: "Demolition - Tues", "Dobilas - Tuesd... Claimed", "Patriots Claimed", "Team Length Claimed", and "Warriors Claimed". Each card has a small icon and a "Claimed" status indicator.

## FAQ's

### Is Teampay secure?

At Teampay we have partnered with Stripe to offer the most safe and secure payment gateway to ensure your money is being delivered to the organisation. You can view both Teampay and Stripes terms and conditions here.

### What if I don't have smart phone?

Not to worry, you can register your account on our website or alternately sign up to an account on team members phone. Once you've registered your details and preferred bank details you can simply log out and your set to go.

### Do I have to bring my phone to every game?

That's one of the great things about Teampay, once registered you can literally leave your phone in the car, or even at home and not have to worry about a thing. For team designated team captains they will need to have their phone on them to select who on the team is playing the match.

### What if I don't trust my team captain/coach to select the correct players?

We understand that you may not know your team captain/coach all that well and can empathise with this concern, so we've gone ahead and created an option where you can opt to have a unique 4-6 digit pin connected to your account. This means anytime the team captain selects you to play, a pin pad will pop where you will be required to then enter your personal pin number to authorise payment.

### Can I make extra payments on behalf of someone?

The captain does have the ability to override and increase a player's payment if the team agrees to it. This most common scenario for this would be if someone was filling in for your team as a one off and someone had agreed to cover the fill ins fees.

### Do I get notified once a payment has been made?

Yes absolutely. A notification will be sent direct to your handset letting you know when a payment has been made from your bank account and for how much.

### Can I see my payment history?

Yes the app allows you to go back and see your full payment history for the season.
